ABOUT ME

I am a Software Engineering graduate from Saxion University (completing July 10th) with a full-stack development experience. Having successfully completed three internships, I have gained experience working on web applications using serverless technology. My technical stack wrapped around JavaScript/TypeScript (React, Vue, NestJS, Hono, Cloudflare Workers/Pages) and the .NET ecosystem (C#, ASP.NET, Azure Functions, Bicep). I am quite familiar with Java and SpringBoot as well.

WORK EXPERIENCE
